

When you see the words **“Made in the USA”**, it’s more than a product. It’s a lifeline for the American workers who showed up to make your product. A lifeline for the manufacturing plants that keep America moving. It’s a facelift for an economy that needs a little more sparkle, and a lot more shine.

When you buy an American made product, you make our country become a little bit better. A little bit stronger. When you buy a product that’s made in the USA, you just saved another American’s job. You do your part to help our economy thrive again. It’s a strict number’s game: for every 1 manufacturing job, another 2-8 jobs are created.

Up our country’s odds. Keep the USA’s heart beating strong.

Buy American.
